OBJECTIVE

Computer Science Engineering student seeking a Flutter Developer or Cloud Computing internship. Experienced in building mobile and full-stack applications using Flutter, Python, and SQL, including cloud-deployed projects and an advanced offline music player. Strong problem-solver eager to learn cloud technologies and contribute to team-driven development. **Portfolio:** <https://main.d27zpy8okwhhle.amplifyapp.com/>

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science Engineering
Sethu Institute of Technology, Computer Science Engineering | 2024–2028 CGPA: 8.50/10 (up to third semester)

PROJECT EXPERIENCE

FarmLink –D2C for famer and consumer| FastAPI, PostgreSQL, SQLAlchemy, Cloudinary

- Developed a full-stack direct-to-consumer agricultural marketplace connecting farmers with customers for buying and selling farm products.
- Built RESTful APIs using FastAPI and SQLAlchemy with PostgreSQL for managing users, products, categories, orders, and marketplace operations.
- Integrated Cloudinary for product image storage and implemented backend services designed for scalable cloud deployment.
- Link: <https://bit.ly/4wL6Snk>

Offline Music Player | Flutter

- Developed an offline music player app with background playback and core controls, featuring efficient local audio handling for smooth offline performance.
- Designed a clean, responsive mobile UI and independently managed end-to-end development, testing, and successful deployment on the Google Play Store.
- Link: <https://bit.ly/4cHuzpl>

AI Photo Enhancer | Flutter, Python, Real-ESRGAN

- Built an AI-powered Windows application using Flutter and Real-ESRGAN for image enhancement, upscaling, and image processing.
- Integrated the Real-ESRGAN model through AI integration and model integration techniques to improve image clarity and resolution.
- Link: <https://bit.ly/4hRDWGy>

TECHNICAL SKILLS

Programming Languages: Python, C++,java

Mobile Development: Flutter, Dart

Backend: Flask, REST APIs

Database: MySQL

Cloud & Deployment: Firebase, Render, Railway, AWS Cloud Basics

Tools: Git, GitHub, VS Code, Android Studio, Postman

CERTIFICATES

Artificial Intelligence Internship – Phoenix Softech

- AI fundamentals, Machine Learning basics, and Python.

IoT Robotics Internship – e-Yantra

- IoT fundamentals, sensor interfacing, embedded systems, and C programming.

AWS Cloud Practitioner Essentials

- Cloud computing fundamentals, AWS core services, and Amazon EC2.

Python Programming – NPTEL

- Python, Object-Oriented Programming (OOP), Data Structures, and Problem Solving.

Cloud Computing Fundamentals – IBM SkillsBuild & NPTEL

- Cloud architecture, virtualization, IaaS, PaaS, SaaS, and cloud security.
